Contents of Volume 18

No. 1, July 1993

Analysis of archaeal phospholipid-derived di- and tetraether lipids by high temperature capillary gas chromatography
P.D. Nichols, P.M. Shaw, C.A. Mancuso and P.D. Franzmann (Australia) 1

Microtitration plate most-probable-number tests for the enumeration of *Escherichia coli* in estuarine and marine waters
J.F. Hernandez, C.W. Kaspar, P.A. Hartman and R.R. Colwell (France, USA) 11

Sequential alkaline saponification/acid hydrolysis/esterification: a one-tube method with enhanced recovery of both cyclopropane and hydroxylated fatty acids
W.R. Mayberry and J.R. Lane 21

Long-term storage of bacterial inoculum for direct use in a microbial biosensor
B. Beyersdorf-Radeck, R.D. Schmid and K.A. Malik (Germany) 33

Preservation of unicellular green algae by a liquid-drying method
K.A. Malik (Germany) 41

Test systems for determining antifouling coating efficacy using on-line detection of bioluminescence and fluorescence in a laminar-flow environment
M.W. Mittelman, J. Packard, A.A. Arrage, S.L. Bean, P. Angell and D.C. White (USA) 51

Microbial cell surface hydrophobicity, The involvement of electrostatic interactions in microbial adhesion to hydrocarbons (MATH)
G.I. Geertsema-Doornbusch, H.C. van der Mei and H.J. Busscher (Netherlands) 61

Efficient sampling designs for microbial processes: a case study
K.R. Johnson, R.W. Lundman and M.A. Hamilton (USA) 69

No. 2, September 1993

Digoxigenin-labeled probes for detection of genes coding for enterotoxins and toxic shock syndrome toxin-1 from staphylococcal strains
M. Vilaro, B. Jaulhac, S. Rifai, P. Nicolini, Y. Piemont and H. Monteil (France, Syria) 83

A computer program for the determination of most probable number and its confidence limits
A.J. Klee (USA) 91

A novel bioreactor simulating composting of municipal solid waste
A.C. Palmisano, D.A. Maruscik, C.J. Ritchie, B.S. Schwab, S.R. Harper and R.A. Rapaport (USA) 99

Artifacts in video measurements cause growth curves to advance in steps
F. Hammad, R. Watling and D. Moore (UK) 113

The use of selenoanalogues as specific inhibitors of thioaminoacid metabolism by sedimentary bacteria
D.B. Nedwell, M.T. Shabbeer and R.M. Harrison (UK) 119

Bacterial sensitivity to UV light as a model for ionizing radiation resistance
A.A. Arrage, T.J. Phelps, R.E. Benoit, A.V. Palumbo and D.C. White (USA) 127

Detection of *Chlamydia pneumoniae* using a general Chlamydia polymerase chain reaction with species differentiation after hybridisation
H.T.J. Tjhie, R. Roosendaal, J.M.M. Walboomers, J.J.H. Theunissen, R.R.M. Tjon Lim Sang, C.J.L.M. Meijer, D.M. MacLaren and A.J.C.. van den Brule (The Netherlands) 137

A colorimetric assay for the enumeration of *Candida albicans* in biological samples after amplification in a selective medium
C. Léveillé, B. Carré, M.C. Chevrier, L. Trudel and N. Deslauriers (Canada) 151

No. 3, October 1993

Editorial iii
Preface: Analysis of host–pathogen interactions. Implications for pathogenesis
M.D.P. Boyle (USA) 163
Methodological approaches of assessing microbial binding to extracellular matrix components
P. Doig and T.J. Trust 167
The interactions of the cell surface P1 adhesin molecule of *Streptococcus mutans* with human salivary agglutinin
L.J. Brady, P.J. Crowley, D.A. Piacentini and A.S. Bleiweis (USA) 181
Adherence molecules of *Candida albicans*
R. Calderone and E. Wadsworth (USA) 197
Molecular characterization of fibronectin binding proteins in bacteria
A.N. Olsén, E. Hanski, S. Normark and M.G. Caparon (USA, Israel) 213
Methods to study bacterial invasion
P. Tang, V. Foubister, M.G. Pucciarelli and B.B. Finlay (Canada) 227
Purification and assay of bacterial collagenases
D.V. Lim, R.J. Jackson and C.M. Pull-VonGruenigen (USA) 241
Analysis of bacterial receptors for host iron-binding proteins
A.B. Schryvers and B.C. Lee (Canada) 255
Solid and fluid phase assays for bacterial plasminogen activators
K.H. Johnston (USA) 267
Use of isogenic mutants to study bacterial virulence factors
P.A. Gulig (USA) 275
Use of antibodies for analysis of bacterial proteins
M.D.P. Boyle, E.L. Faulmann and D.W. Metzger (USA) 289

No. 4, December 1993

Identification and quantification of coccolithophorids by transmission light microscopy
S. Puškarić (Croatia) 305
Reversal of inhibitory effects of *Acanthamoeba castellanii* lysate for *Legionella pneumophila* using catalase
R. Connor, J. Hay, A.J.C. Mead and D.V. Seal (UK) 311
On line, non-destructive biomass determination of bacterial biofilms by fluorometry
P. Angell, A.A. Arrage, M.W. Mittelman and D.C. White (USA) 317
Organic acids and stable isotope metabolic studies of a thermophilic sulfur-dependent anaerobic archaeon
A. Rimbault, J. Guezennec, M. Fromage, P. Niel, A. Godfroy and F. Rocchiccioli (France) 329
Rapid screening for bacteria capable of degrading toxic organic compounds
R.W. Gorden, T.C. Hazen and C.B. Fliermans (USA) 339
A method for determining the mass-molecular composition of microbial exopolysaccharides
S.K. Votselko, T.P. Pirog, Y.R. Malashenko and T.A. Grinberg (Ukraine) 349
Microbial heat resistance determinations by the multipoint system with the thermoresistometer TR-SC. Improvement of this methodology
S. Condón, M.J. Arrizubieta and F.J. Sala (Spain) 357
Letters to the Editor
Sensitivity of ATMAA as a novel nitrite reagent 367
Reply to H. Dusch: Sensitivity of ATMAA as a novel nitrite reagent
J.V. Uri (USA) 370
Reply to the reply of Joseph V. Uri
H. Dusch (Switzerland) 373
